

CROWD-CONTROL BARRICADES

Our 8.5ft heavy-duty steel barricades offer unyielding security and seamless setup. Made from galvanized steel, these barriers defy the elements and stand strong against large crowds. Interlocking design creates continuous lines for effortless configuration, while **removable feet adapt to any terrain.**

Most Common Uses:

- Crowd Control at Rallies, Arenas Festivals, Concerts, Stadiums & More
- Designate routes for Parades and Marathons,
- Contain Construction Project Areas
- Bike Racks
- Restrict Off Limit Areas
